Subject: Quarterly Reports Pertaining to Article 5 Compliance

Dear Mr. Muller

This letter follows my February 7, 2012, letter to you regarding Boyce Hydropower, LLC's (Boyce) requirement to comply with standard Article 5 of its license. In that letter, I referenced that the Commission had granted Boyce an extension of time until July 12, 2012, to comply with the requirements of standard Article 5. This due date is incorrect.

On January 18, 2011, Boyce requested a one-year extension of time until April 19, 2012, to file the information requested by the Commission. On January 28, 2011, your request was granted to file the information required to comply with standard Article 5. Therefore, the due date remains at April 19, 2012.

Your next quarterly report is due April 19, 2012, this date coincides with the final date of the time extension. If Boyce is unable to meet the requirements of Article 5 by April 19, 2012, you must request an additional extension of time. Any such request should include a report concerning: (1) what actions Boyce has taken to resolve the Article 5 concerns since your January 20, 2012, filing; (2) documentation of resolved ownership rights thus far; and (3) a plan and schedule detailing a timeline associated with bringing the property rights issue to a close on or before your proposed extension date.

When filing your report, please indicate P-2785-078 on the first page of your letter. If you have any questions concerning this letter, please contact Krista Sakallaris at (202)502-6302.

Sincerely,

Charles K. Cover, P.E.
