Re: Sanford Project P-2785-082
Request For Recision of Commission's Order
& Extension of Time to Re-file New Drawings

Secretary Bose: By Order dated 5 September, 2013 the Commission approved updated Exhibit G Drawings filed by the Licensee on 29 August, 2013. Eight of the ten drawings filed on August 29th were approved by the Commission with an Order requiring the inclusion of a registered surveyor's signature for the drawings prior to the submission to the Commission of the approved drawings in electronic and aperture card format.

Upon subsequent review of certain information contained in the Commission-approved drawings by the Licensee's registered surveyor it was determined that errors exist in the representation of the current ownership of certain property parcels depicted within the FERC Project Boundary for the Sanford Project. Accordingly, the Licensee requests the Commission's recision of the September 5th Order Approving Updated Exhibit G Drawings, and also requests an Extension of Time to conduct the necessary property records research that will produce an accurate and certifiable representation of property ownership with in the Sanford Project Boundary.

Given the steps that must be undertaken to accomplish the necessary tasks to ascertain correct property ownership interests, the Licensee requests an Extension of Time until 15 January, 2014 to re-file the updated Sanford Project Exhibit G drawings for Commission approval.

Sincerely,

Lee W. Mueller, Architect
