Plan and Schedule for Completion of Embankment Seepage Repair

Dear Secretary Bose:

As directed in the letter issued 8 February, 2011, in this docket by the Director, Division of Hydropower Administration and Compliance, Boyce Hydro Power, LLC (Boyce), hereby submits a plan and schedule providing for the completion of the Phase Two embankment seepage repair at Sanford Dam no later than 29 April, 2011.

This filing contains Critical Energy Infrastructure Information. Boyce therefore requests that it be placed in a non-public file.

If you have any questions concerning this filing, please contact me.

Sincerely yours,

Lee W. Mueller, Architect

Plan & Schedule for Phase Two
Embankment Toe Drain Construction

Dear Secretary Bose:

We are writing in response to a letter dated 8 February, 2011 from Mr. Edward Abrams concerning the schedule for completion of the Toe Drain Filter construction at the right embankment of our Sanford project. Our plan and schedule to complete this work is as follows.

2011

February 15	Begin delivery of filter material
February 22	Complete delivery of filter material
February 23	Install observation wells in the proposed work area.
February 24, 25	Deliver all pipe and material and transport construction equipment to the site.
February 28	Commence construction
April 1	Finish construction
April 15	Reservoir restored to normal level

Please let us know if you require further information concerning this schedule

Sincerely yours,

Lee W. Mueller, Architect
