
TELEPHONE MEMO

TO: Public Files

FROM: Holly Frank

PROJECTS: Sanford Project, P-2785-015; Edenville Project, P-10808-005; Secord Project, P-10809-004; Smallwood Project P-10810-006

DATE: 2/11/2013

PARTICIPANTS: Holly Frank and Thomas LoVullo, of the Commission's staff, and Frank Christie and Lee Mueller, of Boyce Hydro

SUBJECT: Water quality monitoring and schedule at the projects

On February 11, 2013, Holly Frank and Thomas LoVullo, of the Commission's Division of Hydropower Administration and Compliance, spoke with Frank Christie and Lee Mueller of Boyce Hydro Power, LLC, regarding the water quality monitoring schedule at the Sanford, Edenville, Secord, and Smallwood projects. By Commission order (87 FERC ¶ 62,365), the licensee is to perform annual water quality monitoring (specifically, year-round temperature monitoring and seasonal dissolved oxygen monitoring). Based on details in the Commission's September 21, 2010 environmental inspection report and the licensee's September 19, 2012 water quality monitoring report, there appears to be a discrepancy concerning the water quality monitoring schedule. Mr. Christie and Mr. Mueller proposed to review their records for documentation of any changes to the monitoring program or schedule. Mr. Christie stated that he will provide an update to Commission staff by March 15, 2013.
