

Heather J Gunn, Wyandotte, MI.

As I know the importance of what needs to be done. I ask that the dates be pushed back a week. I am just one of many who look forward to the end of the September. Our club has a boat meet scheduled for September 22, 2018. Our meet is encouraged by the residents of Secord lake. We provide entertainment and income to the area that most families have looked forward to and have benefited from for many years. . Please reconsider, as Michigan has a limited number of summer days for boating and fishing hobbies.
