

Jennifer Dewulf, Beaverton, MI.

Although Boyce Engineering has made numerous threats to draw down our lake WITHOUT any action I understand that it may really happen this time. I DO NOT understand why it is necessary to do it in September. Our boating season can last well into November and for this company to steal 6 weeks of use of our lake is wrong. We as residents pay premium taxes on our lakefront property's, please do not allow Boyce Engineering to take this time from us.

I ask that you allow the draw down to begin no sooner than 10/22/18.

Thank you for you consideration.
