

brian jezewski, hope, MI.

Please do not start lowering Wixom lake until after Sept 20th as we had to set an appointment with the marina to put our pontoon in storage. Our appt date is Sept 18th and our channel is very shallow so lowering it any earlier will be a huge problem for us. sept 18 was the only day I could get appointment.

All that I am asking is to PLEASE stick with the original date of sept 20 that we were told you were to start lowering the lake.

THANK YOU!!
